SUMMARY

Product design leader with 10+ years of experience across Meta, fintech, banking, and B2B platforms. Experienced in leading product strategy, managing and mentoring design teams, and driving alignment across multiple product organizations, cross-functional teams, and executive stakeholders. Proven ability to influence senior executives and business leaders, secure leadership buy-in, and lead large-scale initiatives from vision through execution. Specialized in monetization, growth, and platform ecosystems, with a track record of driving measurable business outcomes in customer adoption, revenue growth, and operational efficiency through customer-centered design and AI-enabled product development.

PROFESSIONAL EXPERIENCE

META | Product Designer

May 2025 – May 2026

Led design for Meta's bidding ecosystem, one of Ads Manager's most technically complex monetization areas, partnering with Product, Engineering, Data Science, PMM, UXR, and Content Design teams.

- Launched Goal Based Bidding experiences that drove 14K campaign adoptions within 2 months, ~25% spend growth, 6x spend increase among long-tenured advertisers, and 50% lower switchback rates.
- Shipped budget scaling experiences achieving 24% adoption within the first week while maintaining advertiser efficiency targets.
- Led migration strategy from Bid Multipliers to Value Rules, driving 218 campaign adoptions, 88% retention, and securing approximately \$40K in daily recurring revenue.
- Contributed to Value Rules initiatives delivering +64% revenue growth, +8.88% campaign volume growth, +5.6% revenue uplift, and +3.46% revenue share improvement.
- Led a cross-organizational AI accelerated Northstar initiative aligning multiple product teams around a unified bidding vision, securing senior director and VP alignment.
- Leveraged Figma Make, Claude Code, Manus, NotebookLM, and internal AI tools to accelerate concept development, prototyping, research synthesis, and stakeholder alignment.
- Established reusable guidance frameworks, scalable design patterns, and documentation systems that improved organizational efficiency and consistency across advertiser experiences.
- Earned an Exceeds Expectations performance rating within the first six months.

LONG BRIDGE SECURITIES | Principal Product Designer
Feb 2025 – May 2025

- Led product strategy and customer experience improvements across B2B and B2C investment platforms.
- Partnered with stakeholders across China and global markets to improve trading, onboarding, and content experiences.

BAKE | Senior Product Designer
Jul 2023 – Aug 2024

- Defined and launched a new product strategy that increased user engagement by 4% and generated over \$200K in additional revenue during the first month.
- Led customer research and experience improvements across multiple product touchpoints.
- Managed and mentored UX professionals while driving product growth initiatives.

OCBC BANK | Senior Experience Designer (Assistant Vice President)
Jun 2021 – Jul 2023

- Led digital business banking transformation initiatives across Singapore, Malaysia, and Hong Kong, reducing processing time by 80%.
- Established regional design frameworks and standards that improved consistency across multiple markets.
- Facilitated strategic design workshops and mentored designers to strengthen UX capabilities across teams.
- Partnered with business, product, and engineering leaders to deliver large-scale banking experiences.

STORMS | Senior User Experience Designer
May 2019 – Jun 2021

- Redesigned core product experiences, increasing downloads by 12% and boosting engagement by over 500%.
- Conducted multi-market user research and experimentation to inform product direction.
- Built scalable design systems and aligned product roadmaps with business goals.

EPAM | Experience Designer
Jun 2018 – Aug 2019

- Led customer experience and digital transformation initiatives across Southeast Asia, Australia, and New Zealand.
- Facilitated stakeholder workshops and translated business challenges into strategic product solutions.
- Designed and launched regional e-commerce and digital service experiences.

Letter of Recommendation: Eileen Yu

June 2026

Nikki Jahangiri, Director of Product Design (Meta)

To Whom It May Concern,

I'm writing to recommend Eileen Yu for the Product Designer role at Meta. I supported Eileen as her Design Director during her time on the Core Delivery Products team, where she drove design for one of our most technically complex and ambiguous product spaces. She is a strong product designer who excels in systems thinking, collaboration, and deep understanding of customer needs.

Eileen was extremely proactive in leaning into ambiguous areas. She did not wait for problems to be handed to her. Eileen conducted internal and external research, leveraging market insights and advertiser feedback to develop an informed point of view on how to shape product design strategy. She consistently drove alignment with cross-functional partners across Product Managers, Engineering, Data Science, and Research. This enabled her to drive momentum on the team and stay ahead of our goals.

Her product thinking is genuinely systems-oriented. She connects what is happening at the surface level to broader platform strategy and identifies opportunities that others miss. She is not just designing screens. She thinks about how the full ecosystem fits together and how to move it forward in a way that compounds over time.

She leveraged AI tools to accelerate concepting and shape early product direction, driving final deliverables, while teaching her engineering partners AI best practices along the way.

Eileen was an advocate for holding a high bar for design craft, leading internal usability testing sessions, UX audits, and reusable guidance frameworks.

I strongly recommend Eileen for this role. She brings strategic design thinking, speed, and collaborative rigor that makes teams better.

Maik Lutze

Chief Design Officer

Reference: Eileen Yu

5 September 2024

To Whom This May Concern,

My name is Maik Lutze and I am pleased to offer my recommendation of Ellen Yu for a position as User Experience Designer, Researcher and Strategist.

I have been Eileen's direct manager at Cake Defi for the customer-facing Bake crypto investment product. We worked together since July 2023 until the unfortunate unwinding of the product due to business reasons beyond the scope of the department.

In this time, Eileen has proven herself to be an invaluable team member with keen attention on the overall user experience. She is proficient in analysing and creating journeys, identifying friction points and challenging and recommending solutions. Eileen is skilled in various research methods and in surfacing valuable insights from both, research and data. She knows how to surface insights on a continuous basis, giving the team the ability to work ahead of projects and explore solutions.

Eileen's ability to connect and collaborate with both, team members and partners alike assures that design decisions are always informed and never depart from what is possible or desirable. This trait alone has made her one of the most important team members and she most certainly will elevate any other team that relies on drive, wit and collaboration.

Please feel free to reach out to me directly, if you need any more information.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Maik Lutze', is written over a light blue horizontal line.

Maik Lutze

Chief Design Officer Cake Group
