SUMMARY

Principal Product Designer with 15+ years of experience shaping complex platform ecosystems across AI, monetization, fintech, banking, and enterprise products. Proven track record leading product strategy, influencing executive leadership, and aligning cross-functional organizations to deliver scalable customer experiences from vision through execution. Recognized for driving measurable business outcomes in customer adoption, revenue growth, and operational efficiency through systems thinking, customer-centered design, and AI-enabled product development.

Core Competencies

Product Strategy • Platform Design • AI Product Design • Monetization • Growth • Product Discovery • Design Systems • User Research • Experimentation • Cross-functional Leadership • Executive Influence • Systems Thinking

META

Product Designer | May 2025 – May 2026, USA

Owned product design across Meta Ads' bidding ecosystem, one of the platform's most technically complex monetization systems, partnering with Product, Engineering, Data Science, PMM, UXR, and Content Design.

- Launched Goal-Based Bidding experiences driving **14K campaign adoptions** within two months, approximately **25% advertiser spend growth**, **6x spend increase** among long-tenured advertisers, and **50% lower switchback rates**.
- Shipped budget scaling experiences achieving **24% adoption within the first week** while maintaining advertiser efficiency targets.
- Led migration strategy from Bid Multipliers to Value Rules, driving **218 campaign adoptions**, **88% retention**, and securing approximately **\$40K in recurring daily revenue**.
- Contributed to Value Rules initiatives generating **64% revenue growth**, **8.88% campaign volume growth**, **5.6% revenue uplift**, and **3.46% revenue share improvement**.
- Led a cross-organizational AI-accelerated Northstar initiative spanning 15–20 cross-functional partners across Product, Engineering, Design, UXR, PMM, and Data Science, securing Senior Director and VP alignment on the long-term bidding strategy.
- Developed an AI-assisted design operating model that accelerated product strategy, research synthesis, concept exploration, and executive alignment across multiple product organizations.
- Established reusable guidance frameworks, scalable design patterns, and documentation systems that improved consistency across advertiser experiences.
- Earned an **Exceeds Expectations** performance rating within six months.

LONG BRIDGE SECURITIES

Principal Product Designer | Feb 2025 – May 2025, Singapore

- Led product strategy across B2B and B2C investment platforms serving global markets.
- Partnered with executive stakeholders across China and international teams to improve trading, onboarding, and investment experiences through customer insights and data.

BAKE

Senior Product Designer | Jul 2023 – Aug 2024, Singapore

- Defined and launched a product strategy for European and Southeast Asian markets, generating **\$200K+ additional revenue** during the first month while increasing user engagement by **4%**.
- Led end-to-end product discovery through customer research, experimentation, and iterative product design, identified high-impact features and cut concept validation time by two weeks.
- Managed a team of designers while driving cross-functional product initiatives from strategy to execution.
- Co-created a comprehensive design system to ensure consistency and scalability across all touchpoints, reducing implementation efforts to launch MVP within 1 month.

OCBC BANK

Senior Experience Designer (Assistant Vice President) | Jun 2021 – Jul 2023, Singapore

- Led digital transformation initiatives across Singapore, Malaysia, and Hong Kong, reducing business banking processing time by **80%**.
- Established regional design frameworks and scalable UX standards across multiple markets, reducing bankwide product development efforts by 3 months and improving consistency in user experience.
- Facilitated strategic workshops that aligned business, engineering, and design organizations to strengthen UX capabilities across teams.

STORMS

Senior User Experience Designer | May 2019 – Jun 2021, Singapore

- Redesigned core gaming product experiences resulting in **12% download growth** and **500%+ engagement improvement**.
- Led multi-market customer research and experimentation that informed product strategy.
- Built scalable design systems and product frameworks supporting long-term business growth.

EPAM

Experience Designer | Jun 2018 – Aug 2019, Singapore

- Led customer experience initiatives across Southeast Asia, Australia, and New Zealand.
- Facilitated executive workshops translating complex business challenges into scalable digital products.
- Delivered regional e-commerce and enterprise transformation initiatives for clients including Starbucks, DHL, and Amway.

EDUCATION

Master of Digital Management (Distinction)

Hyper Island

Higher Diploma in Design Communication

LASALLE College of the Arts

SKILLS

Product Leadership

Product Strategy • Platform Design • AI Product Design • Monetization • Growth Design • Product Discovery • Systems Thinking

English , Native Proficiency

Mandarin Chinese , Native Proficiency

Letter of Recommendation: Eileen Yu

June 2026

Nikki Jahangiri, Director of Product Design (Meta)

To Whom It May Concern,

I'm writing to recommend Eileen Yu for the Product Designer role at Meta. I supported Eileen as her Design Director during her time on the Core Delivery Products team, where she drove design for one of our most technically complex and ambiguous product spaces. She is a strong product designer who excels in systems thinking, collaboration, and deep understanding of customer needs.

Eileen was extremely proactive in leaning into ambiguous areas. She did not wait for problems to be handed to her. Eileen conducted internal and external research, leveraging market insights and advertiser feedback to develop an informed point of view on how to shape product design strategy. She consistently drove alignment with cross-functional partners across Product Managers, Engineering, Data Science, and Research. This enabled her to drive momentum on the team and stay ahead of our goals.

Her product thinking is genuinely systems-oriented. She connects what is happening at the surface level to broader platform strategy and identifies opportunities that others miss. She is not just designing screens. She thinks about how the full ecosystem fits together and how to move it forward in a way that compounds over time.

She leveraged AI tools to accelerate concepting and shape early product direction, driving final deliverables, while teaching her engineering partners AI best practices along the way.

Eileen was an advocate for holding a high bar for design craft, leading internal usability testing sessions, UX audits, and reusable guidance frameworks.

I strongly recommend Eileen for this role. She brings strategic design thinking, speed, and collaborative rigor that makes teams better.

Maik Lutze

5 September 2024

To Whom This May Concern,

My name is Maik Lutze and I am pleased to offer my recommendation of Ellen Yu for a position as User Experience Designer, Researcher and Strategist.

I have been Eileen's direct manager at Cake Defi for the customer-facing Bake crypto investment product. We worked together since July 2023 until the unfortunate unwinding of the product due to business reasons beyond the scope of the department.

In this time, Eileen has proven herself to be an invaluable team member with keen attention on the overall user experience. She is proficient in analysing and creating journeys, identifying friction points and challenging and recommending solutions. Eileen is skilled in various research methods and in surfacing valuable insights from both, research and data. She knows how to surface insights on a continuous basis, giving the team the ability to work ahead of projects and explore solutions.

Eileen's ability to connect and collaborate with both, team members and partners alike assures that design decisions are always informed and never depart from what is possible or desirable. This trait alone has made her one of the most important team members and she most certainly will elevate any other team that relies on drive, wit and collaboration.

Please feel free to reach out to me directly, if you need any more information.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Maik Lutze', is written over a light blue horizontal line.

Maik Lutze
